If your student has begun immunizations but has not yet received all the required immunizations, he or she may be able to attend school on a provisional or conditional basis. To qualify for provisional enrollment, your student must have received at least one dose of each of the required immunizations. If your student falls into this category, you must submit an Iowa Department of Public Health Provisional Certificate of Enrollment to the school. This certificate expires in 60 days, so you must have your student completely immunized during this time or he/she will not be permitted to attend school until the immunizations have been received. When your student has received all the required immunizations, you must submit a completed Certificate of Immunization to the school.
