Other things I notice:

This week we are going to do fractured fairy tales! A fractured fairy tale is a well known story that has been changed or “fractured” to be different. The video Yeh-Shen is a fractured fairy tale from Cinderella. As you watch, compare and contrast the two fairy tales.

Watch the Video: Yeh-Shen

<https://www.youtube.com/watch?v=HYvh5QZRKjE>

Respond to the questions below after you watch the story of Yeh-Shen:

<p>Describe what happens at the beginning of the story and include the main characters.</p>	<p>How does the character change based on events in the story? What are those events?</p>	<p>How does the story end?</p>
---	---	--------------------------------

Write about a time you were a **spender** (you spent your money as soon as you got it on something you really wanted), a **saver** (you put your money in a savings account or piggy bank to buy something big), and a **giver** (you used your money to help someone in need).

Then choose one of the three examples you wrote about, and share how it felt to spend, save, or give.

Four Seasons

Spring

The fields are rich with daffodils,
A coat of clover cloaks the hills,
And I must dance, and I must sing
To see the beauty of the spring.

Summer

The earth is warm, the sun's ablaze
It is a time of carefree days;
And bees abuzz that chance to pass
May see me snoozing in the grass.

Fall

The leaves are yellow, red, and brown,
A shower sprinkles softly down;
The air is fragrant, crisp, and cool,
And once again I head back school.

Winter

The birds are gone, the world is white,
The winds are wild, they chill and bite;
The ground is thick with slush and sleet,
And I can barely feel my feet.

The last is done, the next is here,
The same as it is every year;
Spring – then sunshine – autumn – snow
That is how each year must go.

Toy Store

Sally and her friends are at the toy store. Answer each problem about **making change**. Show your work!

Sally has 65 cents. If she buys a teddy bear for 32 cents, how much change will she get back?

Alex has 82 cents. If he buys a ping-pong ball set for 64 cents, how much change will he get back?

Devon has 76 cents. Each beach ball costs 35 cents. If he buys two beach balls, how much change will he get back?

Maria has 98 cents. She wants to buy three rubber ducks. Each rubber duck costs 32 cents. Does she have enough money?
